NEW YORK, October 23.—Alluring things have been done in the way of millinery this season, and the word millinery covers a large area of original designing.

There were days in France during the reign of Marie Antoinette when milliner was the name given to all those who made the costumery of great ladies. The most serious part of their work was the designing of a new coiffure. In those days the episodes of history were reflected on the outside of the head as much as the inside. The death of a king called out a colffure called consolation, in which weeping-willow plumes drooped over brooks of silver ribbon and other memorial pieces were scattered through the locks.

It surprised no one to see sailing ships in full rig on the top of the head of a great princess, and if the walrus of the locks.

Landscape Hat.

Where is our fancy carrying us? e see in every shop window and, oc casionally, on the heads of our friends These new hats come up to the demands of novelty, if that is what we are after and, of course, it is. Also, they are so obviously difficult of cheap imitation that there is a good chance that they will remain unusual.

One of these hats is for a child. I is made of brown felt, and around its rounded crown are tiny rabbits and ducks cut out of white felt and ap-piqued on, with embroidered eyes and other features.

Another shows a tiny lady worked in beads watering a tiny bead flower garden.

Another shows small figures in cos-tumes of fifty years ago under parasols, all worked in colored silk.

friends had proven the merit of Usit, the wonderful pure nut-oil Usit, the wonderful pure nut-oil Egyptian skin food.
Usit does all that this grateful woman could claim for it. No wrinkles can stay where it is applied at night before retiring. Usit means smooth, clear, youthful complexions, in place of wrinkles and a faded, old-tooking face. It is food for the neglected, hungry, poorly nourished skin. It means lines are banished and plumpness restored. No other treatment is necessary. If you are losing your youthful good looks go today and get a bottle-of Usit. Keep the beauty that means so much to you. Usit contains nothing that will cause hair growth, and is positively guaranteed. growth, the teed.

For 50 cents any first-class druggist will supply Usit. Always put up in opal bottles. Take nothing else.

FASHIONS

The very modish garment shown in the sketch is really a two-in-one affair. The long Napoleonic cape is detachable, leaving the underneath section a smart fitted golf jacket. This is one of the smartest sport garments of the season. It may be made of broadcloth, gabardine or any one of the number of mixtures so thoroughly approved for sport garments. The fabric chosen should be plain, rather than striped or checked, for plain, rather than striped or checked, for fabrics. the best results. Worn with a sport skirt of bold checked or striped material, with correct accessories such as nearly halling shoes, a becoming sport hat and just the right gloves and ne-kwear, an a to-gether alluring sport outfit will result.

SMART TWO-IN-ONE SPORT GAR-

The golf jacket is cut slightly V at the neck, so that a smart white stock may be comfortably won and it is benediall around, the belt fastening in front with a metal buckle. The cape is a perfectly simple affair, widely circular, and the whole might be fashloned by the average home dressmaker or small tailor with satisfactory results. Sport apparel is now coming in for a tremendous demand, due partly to the fact that most dressy ready-to-wear garments are so elaborately trimmed with fur that they are expensive. A woman who knows good tailoring and

located them somewhere in these coiffures.

Today we have placed strict limitations upon the word millinery. It related to hats and nothing else. No one has a gown made by a milliner, or a wrap. The houses engaged in this trade are supposed to restrict themselves to the adornment of the head and for decades they have acknowledged this restriction.

Now they are branching out. They ornament the neck and the hands. They suggest collars and caps, shoulder wraps and fichus. They make muffs and they invent shopping bags, and they have learned to make all these accessories to the gown in a corresponding color and fabric, so that the woman who buys one article cannot refrain from buying the others.
